

**360° Services in Pharma,
Life Science and
Healthcare Informatics**

Building the Bridge

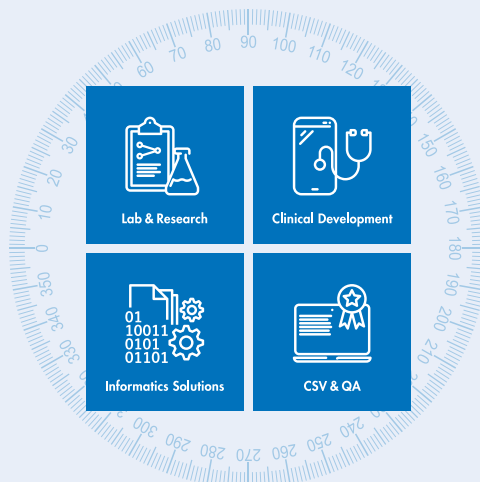

between Business and IT

wega is your service provider specialized in Life Science, Pharma and Healthcare Informatics. Our unique combination of Business, Process and IT knowledge enables us to deliver comprehensive, sustainable and high quality services.

Our employees possess deep expertise due to holding dual qualifications in the scientific as well as in the technical domain. Our core skills range from Lab and Research, Clinical Development and Healthcare to Computer System Validation (CSV). An excellent network of highly specialized contractors and freelancers complement our competencies.

Having acquired more than 25 years of experience and a very high customer satisfaction, wega is one of the best established and well-respected service providers.

360° Services in Pharma, Life Science and Healthcare Informatics

Lab & Research Informatics

Digital transformation of your lab

- Strategic Consulting
- Vendor Assessments and RFPs
- Business Analysis
- Implementation
- LIMS, ELN, LES, CDS, SDMS
- Connected Lab
- Sample Management and Biobanking
- FAIR Data

Informatics Solutions

Reliable informatics solutions: Services for every need

- Requirements Analysis
- Solution Architecture
- Custom Software Development
- Database and Application Maintenance
- System Configuration and Integration

Clinical Development Informatics

Digitalize and extract business value from your clinical data

- Mobile Health
- Digital Biomarkers
- Data Integration
- Machine Learning
- Artificial Intelligence
- Predictive Analytics
- Clinical Data Visualization
- Statistics
- Data Science
- Data Mining

CSV & QA

More than standard: comply with all standards of computer system validation

- Validation Strategy Development
- Training and Coaching
- System Validation Outsourcing
- Audit Support
- Audit Trail Review
- Agile Validation

A hand holding a white marker with a black cap, pointing at a yellow sticky note on a whiteboard. The sticky note has handwritten text: "PLANC", "PLANC", "PLANC", "-DATA", "-BEGIN-", "KANG!". The whiteboard also has other faint handwritten notes like "PLANC" and "KANG!".

Building the Bridge

between Business and IT

ARGUS/Dissolution

The leading solution for automated collaboration in the paperless dissolution lab

ARGUS/Dissolution is a scientific data integrity solution for dissolution testing in the pharmaceutical industry. Covering instrument control, data acquisition, processing and reporting, it conforms to the requirements of Annex 11 and 21 CFR Part 11. The software is consistent with the principles outlined by GLP, GMP and GAMP5 and designed for R&D and QC laboratories.

- Assay
- Dissolution
- Data Integrity
- 21 CFR Part 11
- Audit Trail
- Laboratory Network
- Spectrometer OQ
- Automation
- System Log
- GAMP 5
- Web Access
- Collaboration
- Database
- 150+ devices supported
