

Data Science

Who?

Team of experts in Data Science, Engineering, Analytics & Data Standards with knowledge in Laboratory Research & Clinical Development.

Why?

We provide **end-to-end** software development solutions, enriching your scientific data and extracting **business values** to **generate actionable data-driven insights**.

What?

- Design the **optimal Data Strategy** and **Management Solutions** tailored to industry-specific requirements.
- **Interdisciplinary teams** providing support throughout the entire data lifecycle.
- Implementation of **Data Analytics** using AI, machine-learning and neural networks.
- **Cloud Storage** solutions for long-term data retention and audit trail compliance.

How?

Data Science at wega helps to **shape, validate, coordinate** and **execute** all aspects of **data lifecycle management**. We provide support and guidance for all your data pipeline and vendor requirements.

Use cases:

Unify data collection, data cleaning, data transformation and data science in one platform.

Build data visualisation dashboards from various data sources (structured and unstructured data).
