

Laboratory Information Management Systems (LIMS)

Need a New or Updated LIMS?

wega guides you through the complete journey from initial concept to sustainable operation. If you need a new LIMS, we will assess your processes and advise you on implementation steps. This very often starts with an evaluation if a LIMS is the best solution for you. If you already have a LIMS, we support you in stabilizing, optimizing, and extending its value.

Benefits of a LIMS

- Improves laboratory efficiency and productivity through centralizing samples, data, and workflows
- Improved data security, integrity, and reliable data for decision-making
- Simplified regulatory compliance (ISO, GxP,...)
- Increased customer satisfaction
